Overview

CFCamp is an enterprise-level conference for ColdFusion/CFML, web and mobile developers - taking place on May 22 and 23, 2025 at the Atomis Hotel Munich Airport in Oberding, Germany

It attracts international speakers from the CFML and wider developer communities and attendees across a range of skill levels: from Junior Developers to Lead Architects. Speakers will be talking about the latest trends and programming techniques for ColdFusion and Lucee and related technologies. In the past, CFCamp has been attracting speakers from all over the world: Europe, USA and even as far as from Oceania (New Zealand / Australia)

Sponsors will have direct access to all attendees. Previous years and instances of the conference have attracted more than 200 attendees.

Conference schedule

Mon - Wed, May 19-21, 2025	Several commercial trainings and demonstrations
Wednesday, May 21, 2025	Pre-conference dinner
Thursday, May 22, 2025	Day one of main conference
Friday, May 23, 2025	Day two of main conference

About the Conference

CFCamp has been created as a grassroots initiative to provide training and networking opportunities for beginner and advanced level CFML, web and mobile software engineers. The conference was launched in 2008 as a single-day event with less than 100 attendees and 9 sessions.

Since then the event has continued to grow year-by-year in attendees and number of sessions. In the mid-2010s a pre-conference workshop day was added to the event, which has been adopted for providing half- or full-day commercial training offerings very successfully.

CFCamp now comprises two full days of main conference on Thursday and Friday and with the preceding days used for commercial workshops and training as well as free community events.

Some of the growth milestones were:

2008: single-day - 80 attendees and 9 sessions

2011: single-day - 120 attendees and 10+ sessions

2017: two days - 160 attendees and 20+ sessions and workshop day

2018: two days - 180 attendees and 25 sessions and multiple workshop day

2019: two days - 200+ attendees and 25+ sessions and multiple workshop day

2023: two days - 160+ attendees and 25+ sessions and multiple workshop day

2024: two days - 150+ attendees and 25+ sessions and multiple workshop day

For 2025 we have a new venue hosting CFCamp, the Atomis Hotel Munich Airport in Oberding. It's a very convenient location with its proximity to the airport and hotel rooms for attendees on-site.

This year we are expecting 150+ attendees due to a heightened demand for community meetings after multiple years of hibernation and a widened focus of the conference and expanded content coverage to CFML-related topics like cloud infrastructure and mobile development in the context of CFML as a technology stack

A lot of participants and speakers have already expressed interest in presenting/attending again in 2025. The Call For Papers is currently underway and due to close at the end of February 2025.

CFCamp will be the only CFML conference in Europe in 2025 once again.

Attendee composition

This conference is attended by people from all types of organizations including large corporations, government employees and contractors, individual employees and freelance consultants. At past instances of CFCamp the attendee composition has been as below.

By role (please note that people could identify themselves with more than one role):

- Developer or Engineer (55%)
- Managers (25%)
- Consultants (15%)
- C-Level (14%)
- Architects (12%)
- Freelancer (8%)

By organization type:

- Commercial (79%)
- Government Agency (11%)
- Educational Institution (7%)
- Non-Profit or NGO (3%)

By organization size:

- Small (19%)
- Mid-size (21%)
- Large (48%)
- Global corporate (12%)

Additional events

In addition to the two days of main conference, the preceding days before the conference are being used for commercial training, workshops and related activities such as community events or meetup-like gatherings.

In particular the Wednesday before the main event has proven very popular for third parties to offer training because it's easy for attendees to just arrive a day earlier and make the most of the days before CFCamp.

If you're interested in providing training or holding an informational/promotion event before the conference as part of a sponsoring package, please contact us directly.

Location

The venue for CFCamp 2025 is the Munich Airport Marriott Hotel in Freising, Germany, (<https://all.accor.com/hotel/C1H0/index.en.shtml>).

The conference and meeting facilities on the ground floor are spacious and provide ample room for two parallel tracks during the two days of the main conference. They are supplemented with an exhibition area and smaller lounge and meeting room areas for other activities.

On top of that, there are many additional locations throughout the venue for sponsors and attendees to mix, discuss and discuss opportunities for new technology, business or collaboration solutions: an outdoor / garden area, hotel restaurant and bar as well.

Sponsorship Opportunities

The CFCamp 2025 conference is a unique opportunity for sponsors and attendees to network and collaborate about solving technical and business problems that a lot of organizations face in these trying economic times.

This conference brings together some of the greatest minds in the CFML community with leaders in application architecture and client-side web and mobile app development - as well as database and security experts.

This conference generally offers four levels of sponsorship:

- Platinum (by invitation only)
- Gold
- Silver
- Bronze

Sponsorship packages are described in detail on the following pages of this brochure. Each level includes an assortment of benefits for marketing opportunities before, during and after the conference.

Additional sponsorship options are available and may also be selected on an individual basis or can be added to an existing sponsorship level. Those additional options help to further increase your attendee exposure and also greatly enhance their experience at CFCamp.

Other sponsorship opportunities are:

- CFCamp Party
- (Branded) attendee giveaway items / swag
- Wifi sponsoring
- Other prizes and giveaways
